

Trade Security Statement for Activ Markets

1. Introduction

At Activ Markets, we prioritize the security of our trading platform and clients' assets.

Our security measures are designed to protect against unauthorized access, fraud, and data breaches.

2. Security Measures

- **Data Encryption:** All data transmitted between users and our platform is encrypted using industry-standard protocols.
- **Two-Factor Authentication (2FA):** Users are encouraged to enable 2FA for additional account security.
- **Account Monitoring:** We implement real-time monitoring for suspicious activities and unauthorized access attempts.
- **Secure Transactions:** Funds transfers and withdrawals require multiple verification steps to prevent unauthorized transactions.

3. Fraud Prevention

- **Identity Verification:** We perform stringent identity verification procedures to ensure compliance with financial regulations.
- **Anti-Money Laundering (AML) Compliance:** Our platform adheres to AML policies to prevent illicit financial activities.
- **Phishing Protection:** We educate our users on phishing scams and encourage vigilance against fraudulent activities.

4. User Responsibilities

To enhance security, we recommend that users:

- Keep login credentials confidential and use strong passwords.
- Enable two-factor authentication (2FA) for additional protection.
- Avoid sharing account information or passwords with third parties.

5. Contact Information

For any security concerns or suspicious activities, please contact us at:
